

Dedicated Internet Access

Reliable, robust connectivity with guaranteed assigned bandwidth

From small offices to national enterprises and government agencies, today's organizations depend on reliable access to people, real-time information and advanced web-based Internet applications. Dedicated Internet Access from Bright House Networks Business Solutions provides businesses of all sizes the security, speed, flexibility and enormous reach of facilities-based services – giving you the confidence to run the applications you need to maximize success.

Bright House Networks Business Solutions fully owns and operates our own high-speed, fiber-optic network, so there's no relying on third parties. By connecting directly to our advanced network via a dedicated point-to-point circuit, your business gets reliable connectivity and the best possible Internet speed and throughput.

Delivering speeds from 2 Mbps to 1 Gbps, we offer the highest level of enterprise-class service for businesses requiring guaranteed bandwidth to meet heavy demand. And symmetrical upload and download speeds ensure the highest level of business-grade service, empowering you to take advantage of today's bandwidth-intensive applications.
